CHINESE MASS FOR CRITICAL BATTLE

FORMED NEAR LINYI

Kwangsi Division On March for Secret Destination

"JAPAN'S FINAL EFFORT" BELIEVED IMMINENT

Hankow, Apr. 22.

Chinese troops are pouring into the Linyi area day and night for a gigantic effort to stem the Japanese drive. In their preparations for a forthcoming major engagement the Chinese command is making the heaviest concentrations since the start of the hostilities, exceeding the number of men used in the defence of Shanghai last

The coming battle is generally described by the Chinese as "Japan's final effort to subdue Chinese armed resistance."

The Chinese forces are taking up positions five and six kilometres from Lingi, forming a semi-circle.

Meanwhile the crack Kwangsi divisions are making a rapid march for an undisclosed destination preparation for delivering a power thrust against the Japanese when zero hour for the Linyi battle arrives.

These Kwangsi troops are sturdy, hard-fighting men. trained by General Li Chung-jen, and have distinguished themselves already.—Reuter.

Situation Well In Hand

Hsuchow, Apr. 22. Interviewed late last night, the Chinese military authorities declared that they have the situation in south Shantung well in hand despite the Japanese entry into Linyl and their breaking of the Chinese cordons at Ihslen, Chuchen, Hslangeheng and Tsaechwang.

With heavy Chinese reinforcements arushed up large-scale fighting in south Shantung is expected momentarily, the authorities predicted.

The Japanese reinforcements at Linyl according to the authorities, have now been surrounded on three sides, the east, west and south, by the Chinese. The Chinese cordon is only about five kilometres from the city. During encounters in the last (Continued on Page 4.)

AIRCRAFT DAMAGED IN STORM

Scores Of Junks, Sampans Sunk At Chungking

Chungking, Apr. 22. Four civil and three military aircraft were badly damaged in the early hours of yesterday morning. when a storm of unprecedented intensity, accompanied by violent lightning, struck Chungking.

Scores of junks and sampans were sunk, houses blown down, telephone wires broken, and high tension electric cables parted.

Seven planes were lying in the open at the Chungking civil air field when the storm broke about 1 a.m. Scores of coolies and guards placed duty at the aerodrome, attempted to hold the planes, but gusts of wind began to lift the machines bodily into the air. A handful of men threw themselves on to the wings and tail of a giant Douglas air liner in a frantic effort to prevent its total destruction.-Reuter Special.

Besides the Flying Fortress bombers, Britain can buy single-engined combat planes with speeds of 300 m.p.h., but she will not be able to obtain the newer types, with speeds as high as 400 m.p.h.

DE VALERA SUPPORTS DR. HYDE

Protestant President Of Eire Possible

Dublin, Apr. 21. Representatives of Mr. Eamon De Valera's and Mr. Cosgrave's parties met in an informal conference at Parliament House to-day for the first time since 1922, when they unanimously decided to invite Senator Dr. Hyde, 78 year-old ex-Professor of Irish of the National University, to accept nomination for the new Presidency of Eire.

The decision came as a complete surprise, as he is a Protestant, a former President of the Gaelic League, and has lived in retirement for 20 years. Mr. De Valera surprisingly

nominated him a member of the Senate three weeks ago. If he accepts the nomination for Presidency it appears likely that he will be returned unopposed on May 4 for a term of office of seven years. He will live in the Vice-Regal Lodge and will receive an income of £15,-

000 a year.—Reuter.

Three types of flying boats for coastal bombing will also be available. Engines, with a maximum of 1,100 h.p. may be exported, but the United States retains for her own use engines of 1,500 h.p., while engines of 2,000 h.p. are reported to have been developed.

The Army now possesses super-Flying Fortress machines, greatly superior to the original design, while under secret construction are substratosphere bombers, capable of flying to Europe and back, non-stop. They have six engines and are launched by catapult.—Reuter.

afternoons

GENERAL trend: Elegance, fluid skirts, fitted tops. A lot of movement when you walk. Not quite a frou-frou, but you wait. Note typical lines for afternoon and evening from the sketches:

Bl-coloured dresses --- printed I and pleated at the back, plain in front; or vice versa. Or just two colours, one for the front elevation and one for the back, In the Rochus example the front is black wool, the back silk crepe.

This little Goupy outfit illus-4. trates several fashion points: the vestee effect-plaid surah jacket cut low in front over the net dress; the transparent look both at the hem and neckline; and, of course, pleats.

Apron effects are new, either • as wrapped fronts or a complete copy of cook's apron; like the printed dress sketched. Push this fashion a little further and you get the pinafore dresses of dark crepe over orangdie or broderie blouses.

The redingote-among all the 4. afternoon coat variations, with and without pleats, fullness in the bodice, draped sleeves, cape backs, toga fronts. Vera Borea's wrap-over moulded redingote with front fullness emerges as one of the simplest and lovellest lines to follow.

The bolero outline which ap-D. pears everywhere (particularly for turning full evening dresses into dinner frocks) gives a particularly new outline when worn over a deep corselet belt. In the sketch both bolero and belt are of fine scarlet felt over a summer evening dress of sea blue linen.

Dramatic line at Piguet's; a 0. violet blue, low-cut evening dress turns into a vivid dinner twopiece with its hugely full satin overblouse, almost the line of a ski-ing jacket, one of the newest things out of the collections,

A chatelaine dress. Developed • from the cosy informal entertaining that is part of modern life, several designers show serene ladylike dresses for dinner at home or week-end evenings. This one o heavy dark crepe shows a peasant influence, with soft gathered skirt, white lace bolero too.

Dinner suits have been so use-O. ful they won't go out of fashion for a bit. Over a slim black skirt Creed puts a butter yellow directoire jacket of ribbed silk. Other designers make printed dinnerjackets cut in the Chinese manner from hand-embroidered satin.

Having remarked about the corset top in an earlier report, think Lelong's way is the prettiest; a sugar pink satin corselet laced up over a white net dress with sugar pink pipings and bows. Other developments are the blue satin corset top reaching from decolletage to hip; and the long jumper top with full lampshade skirt gathered on at a low hipline.

Summer Waist Line

IN 3 WEEKS

THE new waistline, the cummergauged and the tucked waistline, all are part of the designers' creed for spring and summer.

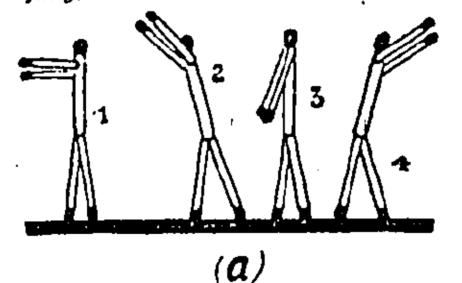

Rurely any belts. Tunics which define the waist and hug the hips. Or princess lines which make the walstline high.

Tweeds, cleverly tucked, on the reverse side, to accentuate what there is of waistline. And the finest point in slimming, the first place to admit any bulge, the worst portion of all to acquire and retain a spare tyre is—the walstline.

On the slimming of the waist resta your success in dress for the coming

You have three weeks in which to achieve a fashionable contour, which necessitates a lessening of the middleline. But in three weeks you can lose two to three inches from a waistline, and that can completely transform you.

Try it, in this way:-(a) Take a standing position, feet ten inches apart, toes pointing forward. Raise the arms forward, then swing them up and over to the right side, twisting from the waist as you

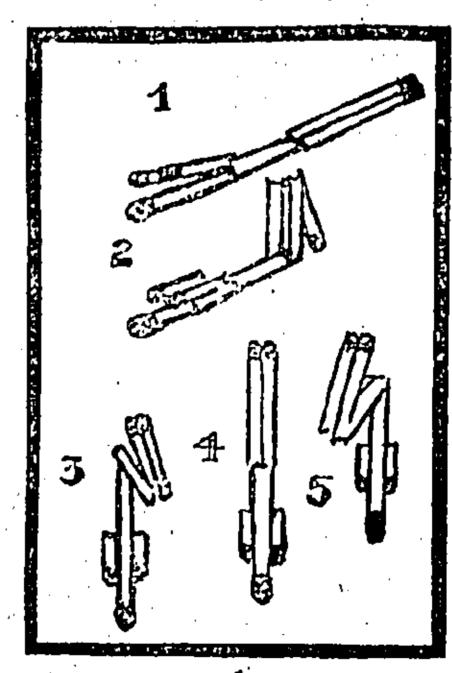

Bring the arms down with a flourish, and swing them up and over to the left side, turning from the waist once more. Repeat twenty times.

(b) Take a position lying on the floor, cloows tucked in at your sides, hands at shoulder-level.

Raise the knees, keeping feet together on the floor. Turn the knees on to the right side, and bring them up under the right armpit. Lower, slowly, stretch and straighten knees as your feet reach central position, curl up knees again and turn over to left side, bringing them up to left armpit. Repeat twenty times. You will be amazed at the effect on the waistline.

Now massage. While lying on the back, place hands at centre front on the ribs and draw across to each side. Lift the hands away and begin again, pressing deeply. Always before a meal or one and a half hours afterwards.

Better still, while the skin is still moist from the bath, take a tablet of reducing soap in each hand and draw across in the same manner. The soap is a weapon with which to fight the encroaching "tyre." If you are otherwise slim, you will not wish to diet, and you cannot

afford to risk losing your facial contours in the cause of your waistline. After all, in every movement, you can trim the waist. You can use it as a pivot—you can never afford to disregard it. And since you will be wearing very few belts this coming season you must have a waistline which can be accentuated with tucks or gauging or cummerbund effect, or draping.

World's Greatest Menace Ahead

Cape Town. SMUTS, South African Minister of Justice and Deputy Prime Minister, made a spirited defence of the League of Nations in Parliament in reply to Dr. Malan, the Nationalist leader, who had said that the League as an effective force was dead.

Gen Smuts said: "The League is not dead. It merely sleepeth." He admitted that owing to one setback after another the League to-day was in a position of impotence, but he would be a most daring person who could say definitely that the League was dead.

It was possible that out of the setbacks which it experienced the League might rise from its present plight to a better position than it had ever occupied.

PRESENT DANGERS

"There are only two alternatives before the world to-day. Either to follow the way of the League, which is the way of consultation and understanding between peoples, or to fight it out to the end. This would lead to the destruction of world civilisa-

"I do not believe mankind will choose the second course. I think the realisation of present dangers which beset our path will help nations to see that there is a better way and that the better way is the way of the League.

"I have not lost my faith in the League. I know there is no other way if our race and civilisation is to be saved."

Gen. Smuts believed that once the necessary adjustments had been made, the Covenant of the League (would once more enjoy the wholehearted adherence of mankind.

WAR LIABILITIES

Britain's actual war liabilities were confined to three matters:

(1) If the position of France, Holland or Belgium was Britain was bound to carry

out her obligations under the Covenant of the League. Britain was bound to defend her territories, colonies and Dominions.

Should war arise South Africa was bound as a signatory of the League to discharge her liabilities.

"Technically and legally we have no other obligations," said Gen. Smuts. Our obligations regarding British wars are not defined. It will depend on whether South Africa decides to take part in such a war or not-apart from a decision of the League. The onus remains on the

BOMB THROWER SEIZED

Missile Failed To Explode

Shanghai, Apr. 21. This morning several officers of high rank from the Japanese flagship Idzumo had a narrow escape from death in front of the Yokohama Specie Bank on the Bund at the hands of an alleged Chinese

terrorist. The Japanese officers and just entered a motor car in the driveway sident of the University of Shanghai, at the side of the Bank and were turning into a street when an unidentified male Chinese hurled a hand grenade in the direction of the ear. The missile, however, fell short and struck the back of the car. It failed to explode because the hurler neglected to withdraw the

Divisions Identified

The authorities revealed that the Japanese reinforcements which came to rescue their comrades beleaguered at Linyi, Ihsien, Chucheng, Hsiangcheng and Tsaochwang are the 102nd and 14th Divisions. The 102nd Division proceeded to Linyi by way of the Weihsien-Taierchwang highway and the 14th Division moved southward to Ihsien and Tsaochwang by

the Tientsin-Pukow Railway. Reinforced by the 14th Division, the Japanese troops at Ihsien and Tsaochwang have broken through the Chinese cordon. They attempted to advance southward along the railway but were halted by the Chinese at.

The Japanese tactics, the authorities stated, are apparently to establish a line between the west bank of the Yi River and the Lincheng-Tsaochwang Railway. RUMOUR MONGERS

Canton Police Seeking Gang of Rufflans

Canton, Apr. 21. For spreading rumours that Japan- M ese planes will bomb bridges and Ju public utility plants, a gang of Sc rufflans are being traced by gendarmes and police who expect arrests shortly. Fabrication of such rumours alarms the public in view of the heavy casualties on April 10 and 17. M.

It is also rumoured that the Japanese Navy made threats to Macao for giving facilities to some Chinese armed Junks which harassed Japanese warships and later sought protection in Macao waters. This story October is circulated by a German news agency, while officials here have no information that such wareraft is in existence.

A spokesman of the Garrison Commandant, Headquarters, stated that while a Japanese destroyer yesterday again fired on the Bocca Tigris forts to show that the Japanese navy was still on the job, only about 10 war- official summary issued at 3.15 p.m. presumably on their way back to scarcity of sellers. It is reported that the Notoro or Kimoi, Japanese seaplane carrier, has gone to the Fulden coast, as the towns in the south were subjected to bombing during the past several days. The planes that raided Kwangtung were from the islands near Chungshan county.—Special.

ASSOCIATION'S APPEAL

Canton, Apr. 21.

Indiscriminate bombings of Canton and the heavy toll of civilians, especially women and children, on April 10 and 17 were deprecated in a pamphlet prepared to-day by the Justice to China Association, an organisation composed of foreign residents here.

The pamphlet urges the Western Powers to use their influence to check such wanton slaughter and destruction by the dropping of bombs from a great height. All the victims in these two severe raids were non-combatants.

Such ruthless raids were delibemitely 'planned," 'as" threats "to bomb the city were announced by leaflets dropped by Japanese bombers a few days before the attacks.--Inter-

TRADE OFFERS SECURITY

It has been said that all wars are fought for trade. Many economists now preach that the causes of war would be removed to a great extent if the world could once more enjoy free commercial intercourse. One of the most convincing arguments in this connection recently was advanced by Mr. W. A. Aldrich, chairman of the Board of Directors of the Chase National Bank of New York. He is recognised as an authority on his subject. long as I can and still remain jolly. "An easy flow of international trade is one of the surest foundations of international peace," he said. He was ad- everything"? vocating the reduction of American trade restrictions, and it of such men and with the sympathy of the Roosevelt ad- sure" has said the last word:ministration that the British overtures for a trade pact have won such a splendid response from the United States. There collaboration of these two great commercial systems, represented by the British and American democracies, can show the world the easiest way out of the present economic morass.

It is really such an obvious course, that which Mr. Aldrich and his proponents advocate, that it requires little explanation is generally estimated upon its internal and external trade, most trustworthy criterion. a nation is going to sell goods, however, it must also be prepared to buy. The moment i tries to sell without buying it is straining the credit of its customer. Ultimately those credits must become frozen, and the buying country gets increasingly into debt, and the selling country finds itself with nothing

A DAZZLING FLASH CAME TO US

By Eddie "Thin Man" Kelly
CINCE LAST WEEK-END WE HAVE BEEN DOING A SPOT OF SLEUTHING.

As a result we can now announce that we have solved the mystery of the post office explosions.

We had to discard several theories before we finally did so. At first it was believed that a popular young man about town, well-dressed, upper part of lip covered with faint wavy moustache; handsome; billfant raconteur, whose name we can't mention here because it's one of the rules of journalism that you can't give yourself a puff, may have written a rather inflammatory letter to one of his girl friends.

There was every indication, also, that the same chappie was due to receive an explosive letter from a low-down Accountant who seems to do nothing all day but gloat over old autographs, signed in hotels and other like places.

Neither of these caused the Post Office Explosions. Nor was it caused by Mr. Wynne Jones, the Postmaster General, expressing annoyance when he discovered that some low cad had pinched the gum from one of his new two-cent stamps.

As a matter of fact, our theory is that there wasn't an explosion, There was definitely a loud bang!

And plenty of smoke. Anyone with a spot of reasoning should have known that the bang was the Rents Commission's Report. If you search around you can still see the smoke. Every now

and then a high Government official or a landford pecks out from behind it and shouts "Boo!" to the tenants.

Letters now away from this loathesome office!

BETTER THAN SUNLIGHT

Light rays which kill germs are not new to science. Ordinary sunlight does the job, but is comparatively weak and takes much time to be effective. The warmth that accompanies sunlight breeds germs while the light is killing them. Sunlight is confined to the outdoors, and so is useless for factory and shop sanitation. Some ultra-violet lamps kill germs, but also emit heat, and so are impractical for use in refrigerators. They make meats rancid. They require too much electric power to operate economically and the quartz envelopes necessary to pass the ultra-violet radiation are

A POOR SHOW PUT UP BY TRIPLE CROWN WINNER

Two Track Records Broken At Easter Race Meeting

(By "Captain Foster")

After a sequence of four successful outings, the mighty Shanghai pride, Silkylight, owned by Mr. Moller was not only-badly beaten by Mr. Eu Tong-sen's Desert Chief, but the champion had also to bow to Mrs. Dunbar's Bear Claw in the major contest, the Easter Stakes, over a mile run last Monday

The latter astounded every racing expert while Silkylight put up a very poor show. This was one of the main features of the Easter Race Meeting, which was a great success. The racing itself was of a very high standard with plenty of thrills and exciting finishes. The favourites held their own on the first day, but lowing results:

77 _ A \	9/1

Total 20 ,, It will be observed that 13 events out of an aggregate of 20 were won between a short head to a length and a half while seven were from two lengths onwards.

The grass course was very hard; in fact the thud of the hoofs could be heard at a good distance as the steeds came tearing down the straight and the going was exceptionally fast, with the result that two track records were established. On Saturday Desert Chief set up a new time, namely, 2.05 as against 2.08.2/5, for China ponles over a distance from the two mile post, once round and in, whilst on Monday the Australian pony, Strathroy, lowered Saucy Face's mile record of a minute and forty-five seconds by three-fifths of a second, Punters will no doubt be interested to know that Humdrum Eve, who annexed the Deep Bay Handicap "C" class over slx furlongs, was carrying 165 lbs. and this chestnut gelding of the stable Lan took 1.20.3/5 to cover the tour of which a note should be kept for the future. While on the subject I made certain references in my last racing notes about Good Morning and Tempest's gallop performed about a fortnight ago, and I gave my vote to Tempest as the winner in the Taiwan Ban Handleap (second section). The result was Golden Cow, Tempest and Ebony Idol, but the second pony paid \$11 for a place and this was not a bad tipping.

The following list shows the successes of the jockeys during the two

GOOD VOLLEYING FEATURES PLAY

(By."Abe")

Because the result of the match was almost certain before play commenced, the semi-final tie in the Colony Tennis Doubles Championship between the Rumjahn cousins and Luk Ding-cheung and Wong Shiuwing on the stand court of the Hongkong C.C. yesterday was robbed of much of its interest. It was not severe test for the holders who realised it better than anybody else; they showed it by playing lackadaisleally in the opening games of each set and finally winning in three straight.

When these two pairs met in the same round last year, the Chinese collected eight games. They did better yesterday, taking 13, but the issue, as in the previous match, was

Though they must have realised that their chances of causing an upset were not bright, Luk and Wong went about their task admirably, apparently caring little for the reputation of their redoubtable opponents. "I have tested "Steradent" carefully in my surgery and find that it definitely does clean the most filthy dentures, removing tartar and tobacco stains entirely after three or four immersions. In my test cases no brushing whatever has been done. Prolonged in-mersion in Steradent did not cause any damage to the dentures." This report from a well-known Dentist is just one of many hundreds of similar unsolicited letters

from members of the Dental Profession who have given 'Steradent' a clinical

The 'Steradent' formula is a new, scientific discovery. Its sole use is to clean and purify false teeth, and it does this as nothing else has ever done before. Just shaker little 'Steradent' powder in a glass of warm water. Stir well. Leave your false teeth, plates and bridges in it while you dress or for overnight, then just rinse. Every stain disappears. Plates regain their wholesome, flesh-pink colour. Dingy, discoloured teeth become beautifully clean, justrous and natural-looking. Your plates feel so smooth, cool, comfortable no odour, or unpleasant tasts. Every tiny travice is cleaned, purified, sterilised. Brushing is a thing of the past—Steradent' is so much more thorough and efficient, and is guaranteed harmless. Satisfactory results in every case. "I consider 'Steradent' to be the best demons cleaner to existence," said Mr. W., L.D.S., R.C.S., Ed., a leading Dentist, when writing recently upon the subject of denture hygiene.

I think, too, that the money which has been spent has been provided by the clubs out of their own reserves instead, as has too often been the case, of being obtained on loan. This reflects the prosperity of the

game. I believe the clubs to be more prosperous to-day than ever before. It is a time only of big gates but of big profits.

Soaring transfer fees, in fact, enable clubs to become rich with the speed of the successful speculator. FIELDSMAN'S PRIZE A BENEFIT TO GAME

A prize for the best fieldsman in eticket has been awarded for several seasons now by the Hartshead Moor C.C., in Yorkshire, with great benefit to their cricket.

Their system is to hand a card and envelope to the umpire, or a spectator with some knowledge of the game. He is invited to write on the card after the game the name of the smartest fieldsman. The votes are then sealed and kept until the end of the sesson, when they are counted and the prize awarded.

The idea is worth copying, as a means of encouraging the often neglected art of fletding, which can, and often does, win matches.—Reuter.

Macao Surprise At Accusation

Colony Has Not Deviated From Neutrality

Macao, Apr. 20. Not a little surprise is felt in Macno at the statement made by a Japanese spokesman in Shanghai to the effect that a number of armed Chinese junks and speed boats are using Portuguese waters as bases for raids on Japanese warships.

The Voz de Macau, the Macao Portuguese daily, states emphatically that the news is without foundation. It is incredible, says the paper, that any insinuation should be made against Macao's neutrality in the conflict between the Japanese and the Chinese, a neutrality which the Portuguese have maintained so loyally. The paper expresses astonishment that anyone should suggest that the Portuguese authorities would permit operations that might disturb the peace and quiet that exists in the colony.

The Chinese press state that no incidents of the nature mentioned in the statement of the Japanese spokesman have occurred, and that the Chinese have always respected Portuguese neutrality. The only attacks made on the Japanese in South China have been those carried out in San Cho Island where the villagers, driven to despair by the atrocities and outrages of the Japanese invaders of the island, are known to have risen in revolt and killed not a few Japanese on two or three occasions .- Our Own Corres-

POLISH PLANES—These planes, drawn up for review at the Mokotow Airdrome near Warsaw, are part of the Polish army's resources. Military training for every able-bodied man, on reaching the age of 21, has been compulsory in Poland. Service in the active army has been followed by 18 years in the reserve. The air personnel is about 8,000 officers and men.

GERMANY URGES RESTRAINT—German government warned Poland not to press the Lithuanian issue to a point where force would be necessary, although diplomatic relations between Poland and Germany had been believed fostered by the recent visit to Warsaw of Field Marshal Hermann Goering, shown left, with Colonel Josef Beck, Polish Minister for Foreign Affairs.

Russians Rescued After 1,000-Mile Drift

AROTIC RESCUE-While the world waited for news, a dramatic hattle was fought with Arctic currents, winds and storms to rescue the four Russian scientists, Ivan Papanin, Ernest Krenkel, Eugene Federoff and Pytor Shirshoff, from their perliqus position on a drifting toe floe. Eventually the icebreakers Murman and Talmyr succeeded in reaching them and they and their scientific records and equipment were saved. During eight months of work and three weeks of danger, the party drifted 1,000 miles.

Daring Coup In Shanghai

Shanghai, April 22. Three gunmen in a black sedan car have kidnapped Mr. Woo Ching-yang, Chinese businessman, and allegedly a member of the Japanese Shanghai Citizens' Federation.

Two gunmen left the car near Mr. Woo's home, and ordered him, at the point of pistols, to enter the car, after which they drove off.

It is noteworthy that Mr. Woo is not considered wealthy, and because of this the police suspect political motive behind the kidnapping .- United Press.

Bombers Continue Raids On Communications

Hendaye, Apr. 21.

Insurgents, driving from University City along the Paseo de Rosales, are reported to be within half a mile of the centre of Madrid, after bisecting the Loyalist front lines on the outskirts.

However, the Montana Barracks has been converted into a virtual fortress and has blocked the way to Puerto de Sol.

Meanwhile, Insurgent planes bombed the eastern coast and also proceeded inland, where they destroyed the Puigcerdia railway station, killed 15 people, and from thence went eastward, demolishing ten miles of railway track.

THE new waistline, the cummerbuild kind, the draped, the gauged and the tucked waistline, all are part of the designers' creed for

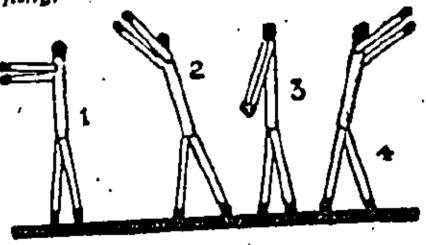

spring and summer. Rarely any belts. Tunics which define the waist and hug the hips. Or princess lines which make the waistline high:

Tweeds, cleverly tucked, on the reverse side, to accentuate want there is of waistline. And the finest point in slimming, the first place to admit any bulge, the worst portion of all to acquire and retain a spare tyre is—the waistline.

On the slimming of the waist rests your success in dress for the coming

You have three weeks in which to achieve a fashlonable contour, which necessitates a lessening of the middleline. But in three weeks you can lose two to three inches from a waistline, and that can completely transform you.

Try it, in this way:—
(a) Take a standing position, feet ten inches apart, toes pointing for-ward. Raise the arms forward, then swing them up and over to the right side, twisting from the waist as you

Bring the arms down with a flourish, and swing them up and over to the left side, turning from the waist once more. Repeat twenty times.

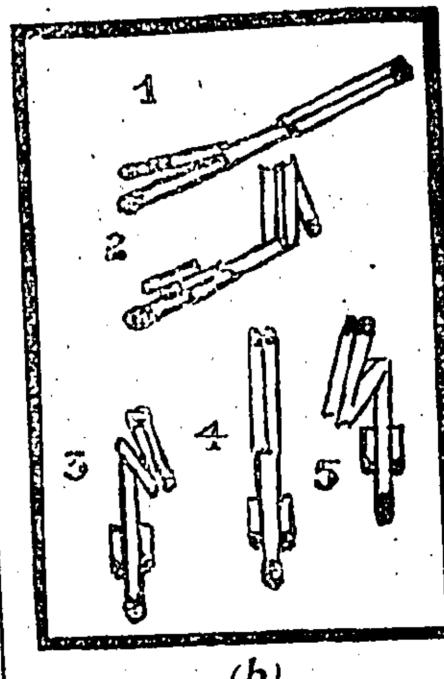

(b) Take a position lying on the floor, cloows tucked in at your sides,

hands at shoulder-level. Raise the knees, keeping feet together on the floor. Turn the knees on to the right side, and bring them up under the right armpit. Lower, slowly, stretch and straighten knees as your feet reach central position; curl up knees again and turn over to left side, bringing them up to left armpit, Repeat twenty times. You will be amazed at the effect on the influence, with soft gathered skirt, waistline.

Now massage. While lying on the back, place hands at centre front on the ribs and draw across to each side. Lift the hands away and begin again, pressing deeply. Always before a meal or one and a half hours after-

wards. Better still, while the skin is still moist from the bath, take a tablet of reducing soap in each hand and draw across in the same manner. The soap is a weapon with which to fight the encroaching "tyre."

If you are otherwise slim, you will not wish to diet, and you cannot

afford to risk losing your facial contours in the cause of your waistline. After all, in every movement, you can trim the waist. You can use it as a pivot—you can never afford to disregard it. And since you will be wearing very few belts this coming season you must have a waistline which can be accentuated with tucks or gauging or cummerbund effect, or draping.

Ford Urges Farmers To Save Nation

"Back To The Land," Industrialist's Advice To People

New York, Apr. 31. Mr. Henry Ford, the motor magnate, who is seeing President Roosevelt on April 27 to discuss with him business conditions, was interviewed to-day, when he said: "I want to give the President a chance to see somebody who does not want

Mr. Ford outlined his own solution for the nation's problems, and said expansion of the back-to-the-farm movement would save the country. "If the people do not raise their own food, they will have to have a dictator to tell them to do so. In no otherway can we raise money. Farms must provide for industry." Mr. Ford reiterated his belief that the only panacea for anything was

Situation Well In Hand

Hsuchow, Apr. 22. Interviewed late last night; the Chinese military authorities declared that they have the situation in south Shantung well in hand despite the Japanese entry into Linyi and their breaking of the Chinese cordons at Ihslen, Chuchen, Hslangeheng and

Tsaochwang. With heavy Chinese reinforcements rushed up large-scale fighting in south Shantung is expected momentarily, the authorities predicted.

The Japanese reinforcements at Linyi, according to the authorities, have now been surrounded on three sides, the east, west and south, by the Chinese. The Chinese cordon is only about five kilometres from the city. During encounters in the last three days the Japanese have sustained considerable losses.

Divisions Identified

to rescue their comrades beleaguered he understood that if they made a ridiculous." at Linyi, Ihsien, Chucheng, Hsiangcheng and Tsaochwang are the 102nd and 14th Divisions. The 102nd Division proceeded to Linyi by way of the Weihslen-Taierchwang highway and the 14th Division moved southward to Ihsien and Tsaoehwang by the Tientsin-Pukow Railway.

Reinforced by the 14th Division. the Japanese troops at Ihsien and Tsaochwang have broken through the Chinese cordon. They attempted to advance southward along the railway but were halted by the Chinese at Hungwawu, south-east of Ihsien.

The Japanese tactics, the authorities stated, are apparently to establish a line between the west bank of the Yi River and the Lincheng-Tsaochwang Railway. But as heavy Chinese reinforcements are concentrated along this line, the Japanese are not expected to succeed in their attempt easily .- Central News.

the Board of Directors or the Standing Committee, plaintiff replied that such a decision must be made by the Board of Directors.

EMPLOYEES EMBARRASSED In reply to further questions, he said that if was rather embarrassing for employees still in the service of the Company to ask for a refund of their salary. They would prefer to await the Company's discretion on such repayment. The Company was under no compulsion to pay; it could do so whenever it liked. Employees who were still employed in the firm would not ask for the refund because they wanted to keep their jobs, but as plaintiff had left, he had asked for

the refund. By the words "If the Company should improve its business some- by military authorities in Kwang-Japanese reinforcements which came what in the future," plaintiff said tung as being "groundless and profit, or did not lose money.

DECISION REVERSED

Questioned by Mr. Potter, plaintiff

said there were a few lines in the notice to the effect that should the Company make a slight recovery the cut would certainly be refunded. There was nothing about an employee not entitled to compensation on leaving the Company. He really regarded the notice in the mess 100m as fairly expressing what Mr. Chan Harr had told him at the meeting. Giving judgment, His Lordship said: "I am satisfied on the evidence given to-day that the only promise held out to the plaintiff and his codepartmental heads was one of a refund of their deductions if and when the circumstances of the Company proved sufficient to justify such a refund. There is no evidence before me that the Company has since been in such a position. It therefore follows that judgment is for the defendants with costs and I reverse my

U.S. Ready to Sell Second-Rate War Planes

THIRTY TYPES NOW AVAILABLE FOR SALE TO BRITAIN

But Latest Designs And Fastest Fighters For Exclusive American Use

New York, Apr. 21.

Thirty different types of fighting planes, including the U.S. Army's famous bomber, the "Flying Fortress," will be offered the British Air Mission as available for export, it was learned to-day.

The United States considers that the Army and Navy possess planes superior to these types, hence they are willing to sell for export.

Besides the Flying Fortress bombers, Britain can buy single-engined combat planes with speeds of 300 m.p.h., but she will not be able to obtain the newer types with speeds as high as 400 m.p.h.

Three types of flying boats for coastal bombing will also be available. Engines, with a maximum of 1,100 h.p. may be exported, but the United States retains for her own use engines of 1,500 h.p., while engines of 2,000 h.p. are reported to have been developed.

The Army now possesses super-Flying Fortress machines, greatly superior to the original design, while under secret construction are substratosphere bombers, capable of flying to Europe and back, non-stop. They have six engines and are launched by catapult.—Reuter.

TRADE OFFERS SECURITY

It has been said that all wars are fought for trade. Many economists now preach that the causes of war would be removed to a great extent if the world could once more enjoy free commercial intercourse. One of the most convincing arguments in this connection recently was advanced by Mr. W. A. Aldrich, chairman of the Board of Directors of the Chase National Bank of New York. He is recognised as an authority on his subject. "An easy flow of international trade is one of the surest foundations of international peace," he said. He was advocating the reduction of American trade restrictions, and it such men and with the sympathy of the Roosevelt administration that the British overtures for a trade pact have won such a splendid response from the United States. There can be no doubt but that the collaboration of these two great commercial systems, represented by the British and American democracies, can show the world the easiest way out of th present economic morass.

It is really such an obvious course, that which Mr. Aldrich and his proponents advocate, that it requires little explanation. First, it must be granted that the prosperity of any nation is generally estimated upon its internal and external trade, and of the two the latter is the most trustworthy criterion. a nation is going to sell goods, however, it must also be prepared to buy. The moment is tries to sell without buying it is straining the credit of its customer. Ultimately those credits must become frozen, and the buying country gets increasingly into debt, and the selling country finds itself with nothing but uncollectable foreign loans in exchange for goods it has exported. It is necessary to adopt a "cash" system, and the creditor countries must be paid in gold. It is apparent that this one-sided arrangement must soon come to an end for the gold is quickly exhausted.

Debtor countries are driven to desperate expedients by trade restrictions. Since they cannot sell, they cannot buy, and they are forced to attempt, someresult of the trade war: Ger- cuse for combat. . . . I think the answer must be: own master.

THE "VERY IDEA"

IN A DAZZLING FLASH IT CAME TO US

By Eddie "Thin Man" Kelly
CINCE LAST WEEK-END WE HAVE BEEN DOING A SPOT OF SLEUTHING.

As a result we can now announce that we have solved the mystery of the post office explosions.

We had to discard several theories before we finally did so. At first it was believed that a popular young man about town, well-dressed, upper part of lip covered with faint wavy moustache; handsome; brilliant raconteur, whose name we can't mention here because it's one of the rules of journalism that you can't give yourself a puff, may have written a rather inflammatory letter to one of his girl friends.

There was every indication, also, that the same chappie was due to receive an explosive letter from a low-down Accountant who seems to do nothing all day but gloat over old autographs, signed in hotels and other like places.

Neither of these caused the Post Office Explosions, Nor was it caused by Mr. Wynne Jones, the Postmaster General, expressing annoyance when he discovered that some low cad had pinched the gum from one of his new two-cent stamps.

As a matter of fact, our theory is that there wasn't an explosion.

There was definitely a loud bang! And plenty of smoke,

Anyone with a spot of reasoning should have known that the bang was the Rents Commission's Report. If you search around you can still see the smoke. Every now and then a high Government official or a fandlord pecks out from behind it and shouts "Boo!" to the tenants.

SCIENCE PERFECTS GERM DEATH-RAY AQUASHEEN

BY MARTIN KANE United Press Staff Correspondent New York.

DEATH RAY for microbes, so practical and inexpensive that restaurants, soda fountains, butcher shops and bakeries and even cosmeticians may was demonstrated nation's public health authorities, physicians and scientists.

The ray kills typhoid germs in eight seconds. Other germs are destroyed in less time. The black mold that forms on bread is the toughest yet discovered, requiring 19 minutes of exposure at a distance of four inches to be killed. But bacteria so far studied fall between these extremes.

BETTER THAN SUNLIGHT Light rays which kill germs are not new to science. Ordinary sunlight does the job, but is comparatively weak and takes much time to be effective. The warmth that accompanies sunlight breeds germs while the light is killing them. Sunlight is confined to the outdoors, and so is useless for factory and shop sanitation. Some ultra-violet lamps kill germs, but also emit heat, and so are impractical for use in refrigerators. They make meats rancid. They require too much electric power to operate economically and the quartz envelopes necessary to pass the ultra-violet radiation are expensive,

Dr. Harvey C. Rentschler, director of research of the Westinghouse lamp laboratory and co-developer of the apparatus with Dr. Robert F. James, disclosed that he had perfected a process of sterilization by selective ultra-violet radiation which conquer- eye of blind Father Antonio M. ed all these common objections.

Mighty Silkylight Beaten By Desert Chief

A POOR SHOW PUT UP BY TRIPLE CROWN WINNER

Two Track Records Broken At Easter Race Meeting

(By "Captain Foster")

After a sequence of four successful outings, the mighty Shanghai pride, Silkylight, owned by Mr. Moller was not only badly beaten by Mr. Eu Tong-sen's Desert Chief, but the champion had also to bow to Mrs. Dunbar's Bear Claw in the major contest, the Easter Stakes, over

The latter astounded every racing expert while Silkylight put up a very poor show. This was one of the main features of the Easter Race Meeting, which was a great success. The racing itself was of a very high standard with plenty of thrills and exciting finishes. The favourites lowing results:

The grass course was very hard in fact the thud of the hoofs could be heard at a good distance as the steeds came tearing down the straight and the going was exceptionally fast, with the result that two track records were established. On Saturday Desert Chief set up a new time, namely, 2.05 as against 2.08.2/5, for China ponies over a distance from the two mile post, once round and in, whilst on Monday lbs, and this chestnut gelding of the stable Lan took 1.26.3/5 to cover the tour of which a note should be kept for the future. The result was Golden Cow, Tempest and Ebony Idol, but the second pony paid \$11 for a place and this was not a bad

GOOD VOLLEYING FEATURES PLAY

Because the result of the match was almost certain before play commenced, the semi-final tio in the Colony Tennis Doubles Championship between the Rumjahn cousins and Luk Ding-cheung and Wong Shluwing on the stand court of the Hongkong C.C. yesterday was robbed of much of its interest. It was not a severe test for the holders who realised it better than anybody else: they showed it by playing lackadalsically in the opening games of each set and finally winning in three straight.

When these two pairs met in the same round last year, the Chinese collected, eight games. They did better yesterday, taking 13, but the issue, as in the previous match, was

Finals Fixed For Next Week

Though they must have realised that their chances of causing an upset were not bright, Luk and Wong went about their task admirably, apparently caring little for the reputation of their redoubtable opponents, Helped perhaps by the casual play of the cousins, the C.R.C. combina-(Engineers) and Chung Fal-lum but each time they were pulled up.

They led 4-2 in the first and second sets, and again they went ahead to \times 3.17.4 4-3 in the third.

SOMETHING IN HAND

The Rumjahns revealed that they 2.01.2 always had something in hand by the manner in which they were able to dominate the exchanges whenever 1.532 they were in danger of losing a set.

In the opening games of every set however, the Chinese more than held their own in the rallies, some of which were of a very high standard. Play was punctuated by volleying duels near the net, and though they were almost always outplayed Luk and Wong helped to treat the mere handful of spectators to some really fine tennis.

£70,000 SPENT IN A WEEK OF BIG TRANSFER RUSH

Luton And Chelsea Fail In Bids For Brentford Forwards

By Arbiter (Frank M. Carruthers)

London, Mar. 16. Stricken with fear as to the fate which may befall them, the clubs are pouring out their money on new players. It is a safe estimate that during the past week they have spent over £70,000. The amount, too, is likely to be substantially increased before midnight to-day, when all transfers for the purpose of this season will cease.

CLOSING THE GAP

The St. Helen's ground is regularly used by the Swansea Rugby club, but so poor is the support given to it that it is more a liability than an asset to the town. The Swansea club, in fact, is over £6,000 in debt, and a great amount of that is owing to the Swansea Corporation, owners

Minus the compensation of international games, the Corporation will have to think seriously about granting further support to the Swansen

That is where the business men's committee mean to step in with their proposal to start a Rugby League team. They claim that visits from such professional clubs as Hull, Leeds, and Wigan, plus international games with England and France, will close the gap created by the withdrawal of amateur internationals.

Phillies Blanked By Dodgers

New York, Apr. 21. While the New York Ginnts just managed to nose out the Boston Braves in the National Baseball League, the New York Yankees were beaten by the Boston Red Sox in the American League in spite of the fact that they collected 13 hits against their opponents' three.

Fine pitching by Pressnell enabled

the Brooklyn Dodgers to blank out the Philadelphia Phillies. Cincinnatti Reds had six runs from 13 hits against the Chicago Cubst two from four. The Pittsburgh Pirates had a close tussle with the St. Louis Cardinals and finally won by 6-5,

Though out-hitting the Detroit Tigers by 9-8, the Chicago White Sox had to bow to defeat by 9-3, and the Cleveland Indians "pipped" the St. Louis Browns by 4-3. Scores:

Russians Rescued After 1,000-Mile Drift

ARCTIC RESCUE—While the world waited for news, a dramatic battle was fought with Arctic currents, winds and storms to rescue the four Russian scientists, Ivan Papanin, Ernest Krenkel, Eugene Federoff and Pytor Shirshoff, from their perilous position on a drifting ice fice. Eventually the icebreakers Murman and Talmyr succeeded in reaching them and they and their scientific records and equipment were saved. During eight months of work and three weeks of danger, the party drifted 1,000 miles.

In association with the Grand Hotel des Wagons Lits, Peking

Here are rescue scenes. Top, the camp on the floe. Centre left, Leader Papanin, right, meets Cannady Vlasov, first aviator from the icebreakers to reach the camp. Centre right, Krenkel sends the camp's radio equipment over the ice to a rescue ship. Lower left, digging equipment out of the deep snow. Lower right, planes of the Talmyr being assembled on the ice, preparatory to scouting trips to locate the party. The furious gale on Jan. 21 broke the floe, leaving the camp on a small ice island.
